

THE PACIFIC SLOPE.

A Sacramento Girl Commits Suicide by Poisoning.

SEQUEL TO A QUARREL.

Admonitions of Her Lover to Reform Her Ways Made Her Angry.

WOULD NOT HEED HIS WORDS.

After Leaving Him She Buys Carbollic Acid and Swallows the Fatal Draught.

SACRAMENTO, March 10.—A young woman named Georgia Montgomery ended her life this morning by swallowing the contents of a two-ounce vial of carbollic acid at the residence of her parents, 1113½ H street, in this city. The cause of the act is supposed to be a misunderstanding which she is reported to have had with her lover, who is employed in a downtown barber-shop.

The girl left her home Saturday evening at 7 o'clock, apparently in the best of spirits. She promised to return at an early hour. About midnight the girl's mother was awakened by her cries for help, and rushing into her daughter's room, found her tossing in agony upon her couch. She asked what was the matter, and was horrified to learn that the daughter had taken poison. The services of a physician were procured, but every antidote applied was ineffectual and she soon died.

Miss Montgomery's parents are respectable people, her father being an old resident of Sacramento, who several years back was engaged in the undertaking business, but at present is in the employ of the Southern Pacific Railroad Company as a carpenter. The girl herself has been wayward and has associated with unworthy characters. In fact, the misunderstanding she had with her lover was on account of her associates and because she had been seen in a dancehouse. Before she left home last night her mother besought her to give up her method of life and she would endeavor to furnish her ample means for enjoyment.

EQUITABLE PROTECTION LEAGUE.

Efforts at Sacramento to Propagate Its Tenets.

SACRAMENTO, March 10.—Senator E. C. Voorhees called a meeting of the Equitable Protection League in room 14 of the Capitol building at 3 o'clock this afternoon for the purpose of preparing an address to the public setting forth the objects and purposes of the league, to interest the press of California in the proposition and to push the organization of local clubs.

A committee of three was appointed to visit San Francisco and endeavor to enlist the advocacy of a metropolitan journal. A committee was also appointed to secure canvassers throughout the State. The league is growing rapidly in Sacramento, over sixty new names being secured to-day, and nearly all the Republican members of the Assembly have joined the association up to date.

The Agricultural Committee of the House has endorsed the plan of a bounty on agricultural exports, and the league bids fair to become a power throughout the land.

ACCIDENT AT NEWCASTLE.

A Mother and Her Daughter Seriously Injured in a Runaway.

NEWCASTLE, March 10.—Mrs. Marie Billings and daughter, Miss Edith, while driving about 10 A. M. to-day, met with a serious accident. The horse suddenly became frightened and when turning a sharp bend in the road the occupants were thrown violently from the buggy to the ground, both sustaining serious injuries.

Mrs. Billings' head struck a rock, breaking her skull and forcing out her eye. She is not expected to live. Miss Edith is suffering from concussion of the brain and also sustained internal injuries. Although so seriously injured it is expected that she will recover. The buggy was wrecked.

BURGLARY AT SAN JOSE.

Looting of the Residence of a Prominent Citizen.

SAN JOSE, March 10.—The residence of E. L. Auersalz, on Alamo Rock avenue in this city, was entered by two burglars at 3:30 o'clock this morning and a large amount of silverware and clothing was secured.

The burglars were heard entering the premises by a rear door, but the family upstairs were afraid to molest the intruders. They rummaged around and secured the plunder and made good their escape.

Before entering the place they broke open two carpenter chests in a house near by and secured the tools with which they gained an entrance to the Auersalz house. There is no clew to the burglars.

The Hydraulic Mining Bills.

SACRAMENTO, March 10.—The Governor will to-morrow at 1 P. M. hear all persons interested in two hydraulic mining bills now pending. One of these provides that hydraulic miners found guilty of contempt may appeal to the Supreme Court. The other provides that all injunctions against hydraulic mining shall hold no longer than twelve months.

Phoenix Railroad Fete.

PHOENIX, Ariz., March 10.—George H. Schneider, president of the Illinois National Bank, and treasurer of the Associated Press of Chicago, arrived with the Fairbank party last evening to participate in the festivities incidental to the opening of the Santa Fe, Phoenix and Prescott Railroad.

WORK OF THE DEACONESSES.

The New Religious Woman Discussed in New York Churches.

NEW YORK, March 10.—Services were held in the various Methodist Episcopal churches of the city to-day under the auspices of the Deaconesses' Advocate, and Miss Kate Curtis of this city spoke at the Central E. Church, where the usual Sabbath services were conducted by the pastor, the Rev. Dr. George Gregory.

Miss Horton spoke on "The Growth and

Development of the Deaconess Work in America," and Miss Curtis related some personal experiences. Mrs. Lucy Ryder Meyer of Chicago, the originator of the movement, spoke in Grace M. E. Church. Miss Mary Lunn of Boston spoke in St. Luke's M. E. Church. Rev. Dr. Weakly of Cincinnati lectured in St. Luke's Madison-avenue Church on "The Ministry of the Deaconess Among the Sick."

SWITCHMEN'S ASSOCIATION.

A New President Elected and a Constitution Adopted.

CHICAGO, March 10.—The Switchmen's Mutual Aid Association, of which Charles Booty was elected president at the last meeting, met this evening with 400 members present. The new constitution was adopted. The most important feature is the entire omission of anything which may be construed as countenancing strikes.

The remaining offices, yet unfilled, were provided for to-night by the election of J. J. Carroll, treasurer; H. R. Rumbold, chairman of the board of directors; John Reston and William Burns, all of Chicago, members of the board of directors. The corresponding secretary, G. S. Cusack, lives at Chicago, in which city the headquarters of the order are located.

DENIED BY ANDREWS.

He Has Not Been Appointed to the Monetary Conference.

NEW YORK, March 10.—The letter of Dr. Andrews to Prof. R. L. H. of Colorado Springs has been taken to imply that Dr. Andrews had been appointed by President Cleveland as one of the Monetary Commissioners and that the conference had actually been called, but a telegraphic inquiry to Dr. Andrews brought the following reply:

PROVIDENCE, R. I., March 10.

The Editor of the World: Inference from letter to Turnbull wholly unwarranted. Have received no new appointment. Know absolutely nothing of President's plans. Mean to attend next conference, but not necessarily as a member. ANDREWS.

Dr. Andrews was one of the American delegates to the Brussels conference in 1892.

UMATILLA INDIAN CITIZENS.

EFFECT OF A JUDGE'S DECISION IN THE CASE OF AN OREGON TRIBE.

THE WHITE PEOPLE FEAR THE RESULTS OF SO RADICAL A CHANGE.

PRELTON, Or., March 10.—Umatilla County had an addition to its citizenship of 1000 Indians yesterday when Judge Fee rendered his decision. The effect of this decision, no doubt, if sustained by the higher courts, will be to remove all restrictions from the Umatilla Indians, except in handling their lands, which were allotted under condition.

The Indian chiefs who have been under arrest for defying the authority of the Indian Court were immediately released and a council called at Young Chief's camp, fifteen miles above the agency, of all the Indians to consider matters.

Near the agency Captain Richards has camped with Troop D, Fourth Cavalry, from Fort Walla Walla, accoutered for heavy service. Agent Harper said: "I called for the troops because Judge Fee's decision removes all my authority over the Indians. No power now exists to prevent the Indians becoming intoxicated and endangering the lives of all on the reservation. They are now free to follow their natural inclinations and drift back to savagery."

This radical change in the relations of the Indians to the people of this county renders some people timid. There are expressions of fear that dire results may follow. The Indian agent under the new regime can merely treat the Indian lands to whites. The Indian Court is done away with, the Indian policemen are discharged and the State courts have complete and sole jurisdiction.

Ohio's New Trotting Circuit.

CANTON, Ohio, March 10.—Dates for a new trotting circuit organized in Canton have been announced as follows:

Rockport, June 18, 19, 20; Canton, June 25, 26, 27; Youngstown, July 2, 3, 4.

New Philadelphia and Canal Dover were rejected through a conflict of dates and two cities are wanted in their stead. Akron and Warren will probably come in. James B. Kennedy of Youngstown is president, and A. M. McCarthy of Canton secretary.

New York Pastor Resigns.

NEW YORK, March 10.—Rev. Thomas Dixon offered his resignation as pastor of the Twenty-third-street Baptist Church at the morning service to-day. He gives as his reason that the work he especially desires to follow is to reach non-church-going people. He says he remains in the fundamental creed a Baptist, but he purposes to place his work on a union evangelical platform with vital faith in Jesus Christ.

Madge York's Murderer.

PHILADELPHIA, March 10.—This afternoon James B. Gentry, the murderer of Miss York, was removed from the hospital to Moyamens prison. Gentry while at the hospital was given every luxury he desired. At the prison all this is changed. The doctors declare that Gentry will not live to stand trial if he has to put up with the prison fare.

Mining Company Incorporated.

PIERRE, S. D., March 10.—Articles of incorporation have been filed for the Mexican-American Mining Company, with headquarters at Sioux Falls and Jurra, Mexico. Capital stock \$3,000,000. Incorporators, J. C. Palmer, George W. Abbot and P. S. Royde, Sioux Falls, S. D.; J. D. McCarrie and M. S. Wright, Kansas City, Mo.

Ex-President Harrison Is Better.

INDIANAPOLIS, March 10.—Ex-President Harrison, after a week of illness that threatened at one time to take a dangerous turn, is rapidly recovering and will be able to be out in a few days. This evening Mr. Harrison's physician expressed the belief that his patient would be up in a few days. The danger point has been passed.

THE MOON'S ECLIPSE.

An Observation of the Phenomenon at Mt. Hamilton.

PROF. HOLDEN'S REPORT.

The Disk of the Orb Was Visible at All Times During Totality.

THIN HAZE OBSCURES THE SKY.

A Clear Atmosphere at Sacramento Enables the People to Obtain a Good View.

LICK OBSERVATORY, "Mount Hamilton, Cal., March 10.—The total eclipse of the moon, which occurred this evening, was observed at the Lick Observatory under somewhat unfavorable circumstances, the sky being obscured during the entire time by a thin haze.

The moon was obscured by half the earth's shadow when it appeared at 6h. 0m. Pacific standard time. Totality began at 6h. 51m. 55s., and lasted until 8h. 27m. 30s. The moon left the earth's shadow at 9h. 25m. 20s., and the penumbra about 10h. 35m.

The moon's disk was visible at all times, being conspicuous a greater portion of totality. The color of the unobscured portion of the disk varied from yellow to a light coppery hue. The times at which the edge of the shadow passed across some of the prominent craters were noted and the times of occultation of several small stars were observed.

EDWARD S. HOLDEN.

CHICAGO HAS A FINE VIEW.

General Photographs of the Eclipse at Various Points of Contact.

CHICAGO, March 10.—The eclipse to-night was viewed at the Northwestern University observatory at Evanston by Director George W. Hough and others.

The moon entered the penumbra at 7:30 o'clock. The first contact when the moon entered the shadow took place at 7:45. Professor Hough photographed the lunar disk in partial eclipse and later secured six photographs at various points of contact. The total eclipse took place at 8:52. The third contact, when the moon began to emerge, was at 10:47 and the fourth contact occurred at 11:35.

After the first half hour the sky was remarkably clear and the moon presented a beautiful picture of delicate colors, varying from light yellow or golden to dark red copper.

Not Seen at New York.

NEW YORK, March 10.—The eclipse of the moon was not to be seen in New York City to-night in a satisfactory way. Thick, fleecy clouds obscured the phenomenon and no special scientific data were obtained in this city.

The View at Sacramento.

SACRAMENTO, March 10.—The total eclipse of the moon was perfect here to-night. The transit lasted from 7:45 till 9:15 o'clock and was witnessed by thousands of persons.

ANDREWS AS A CONFEE.

The Professor Hints at His Appointment by Cleveland.

COLORADO SPRINGS, Colo., March 10.—A letter just received by the Summer University managers here from President E. B. Andrews of Brown University, Providence, R. I., cancels that gentleman's engagement for next summer. He says: "I expect to be, in July, either abroad at the monetary conference or else using every minute in getting ready to go."

The letter is important from the fact conveyed that the international monetary conference is to be held this year, and that President Andrews is to be one of Mr. Cleveland's appointees thereto.

A FATAL CROSSING.

A Woman Killed Where Two Men Met Death Last Week.

St. JOSEPH, Mo., March 10.—At the crossing where Mallory and McBride were killed Thursday night Mrs. Thomas Allen was instantly killed to-night, Gertrude Allen, her 19-year-old daughter, dangerously, and Miss Martha Deacon, 11 years of age, fatally injured.

The three ladies were returning from church and drove upon the crossing just as the Missouri Pacific fast mail from the East thundered up. Mrs. Allen's body was shockingly mutilated and she and her daughter were carried 300 feet on the engine pilot before it could be stopped.

Strikers Quiet at New Orleans.

NEW ORLEANS, March 10.—Among the striking screw men on the river-front to-day there was perfect quiet. A mob last night threw about \$1000 worth of screws and other loading implements into the river. A number of arrests have been made. The levee is lined with policemen.

Order of Iron Hall Cash.

BALTIMORE, March 10.—The Iron Hall fund of \$73,000, contributed by members of the order in this State, has been sent to Indianapolis to swell the fund in the hands of James F. Failey, the general receiver.

Senator George Not After Re-Election.

GREENVILLE, Miss., March 10.—It is authoritatively announced here that United States Senator J. Z. George will not be a candidate for re-election at the expiration of his present term.

A Missing City Treasurer.

GLOUCESTER, N. J., March 10.—City Treasurer George E. King has been missing since last Tuesday and a special meeting of the Council has been called to inquire into the reasons for his disappearance.

Eclipse Observed in Colorado.

PUEBLO, Colo., March 10.—Not a cloud obscured the sky in Colorado, and the lunar eclipse was observable most satisfactorily.

Nineteen Elders Ordained.

BALTIMORE, March 10.—Nineteen elders were ordained this afternoon and authorized to speak the gospel and administer the sacraments of the Methodist Episcopal

church. The services were conducted by Bishop Andrews, assisted by Bishop Joyce. The reverend delegates to the Methodist conference now in session preached in the pulpits of the denomination in this city and in many out-of-town churches to-day.

DEATH OF A NEGRO.

Al Todd, Who Elop'd With a White Girl, Shot.

UNIONVILLE, Mo., March 10.—The elopement about a year ago of Al Todd, a negro, with the daughter of City Marshal William Clark (white) led to murder early this morning. The couple returned yesterday to the woman's home to stay during her confinement.

Upon the promise that Todd would never again show himself Clark told him to go, as he did not want to give the case publicity. At a late hour last night, however, Todd went to Clark's home and called the latter up. Clark ordered him away, but instead of going he held a revolver in a menacing manner when Clark shot him. Todd ran about a block and fell dead. At the coroner's jury Clark was exonerated.

CONFESSED MURDERER.

A Condemned Negro Says He Killed Cashier McCullough.

St. LOUIS, March 10.—Jim Murray, a negro now in jail at Clayton under sentence of death for killing Edgar Fitzwilliams, made a confession to-day in which he implicates Harry Smart and William Hensley in the murder of M. B. McCullough, who at the time of his death was the paying teller of the State Bank of St. Louis.

McCullough was killed in May, 1893, at his home in Woods, a suburb of this city. Murray says he took no part in the murder, but was present when it was committed. He makes this confession hoping to gain a respite from Governor Stone.

NEWS OF THE NAVY-YARD.

THE POLITICAL HEADSMAN'S AX IS STILL IN FULL SWING.

A NEW NAVAL CONSTRUCTOR TO ARRIVE SOON FROM THE NORFOLK YARD.

VALLIEJO, March 10.—The political headsmen's ax seems to be still swinging, as during the past week four messengers felt the effect of its keen edge, and their places have been filled by those of another political faith.

It is believed by many that within a month the Board of Labor will be abolished.

Naval Constructor William J. Baxter, U. S. N., is announced to come to the navy-yard as head of the Department of Construction and Repair, vice the late Naval Constructor S. W. Armistead. Constructor Baxter has recently been at the Norfolk yard.

The Bennington is expected to arrive shortly at the yard, and it will then be seen just what is the matter with her boilers. She will be taken in dock and have a coat of fresh paint, and her valves will be overhauled.

Orders have been issued to have the Monterey ready to leave the yard by the 20th inst. She will probably go to San Francisco and remain there for a few weeks. The ordnance alterations in her turrets are nearly completed.

The increase of men for the navy seems to meet with general favor with the officers, as it will offer an opportunity to commission the Marion, which for the past months has been only waiting for a crew. The Boston will also have an opportunity, when her repairs are completed, to be put in commission.

The cruiser Olympia has been shifted and is now loaded with coal.

The Albattross will probably come out of the drydock the latter part of the week.

Work on the tug for the yard is progressing as well as can be without having all the material on hand.

Nearly 100 men are engaged on the Hartford tearing up her berth and spar decks.

Work of driving piling about the drydock continues right along. The locomotive jib crane, to be run on the track to be laid on the pile foundation, has not yet been received, though it should have arrived from the East long ago.

Pay Inspector R. W. Allen left for Washington the first of last week and Paymaster A. W. Bacon is now performing duty on the Olympia. For the present his family will reside in Vallejo.

After this week the address of Commander and Mrs. J. J. Brice will be at Santa Barbara, where they will remain for awhile.

Lawn tennis is the principal pastime for the ladies and gentlemen at the yard and stationed on the ships during the present beautiful weather.

No More Bodies Found.

CINCINNATI, March 10.—The wrecking crews and divers have been working all day but recovered no additional bodies of those who were lost when the Longfellow was sunk last Friday. Much of the baggage and effects of passengers and most of the freight has been recovered.

Booming a Speakership Candidate.

LONDON, March 11.—The Daily News in a leader urges the claims of the Right Hon. Leonard Henry Courtney to the Speakership of the House of Commons in succession to the Right Hon. Arthur Peel, whose resignation is imminent. Mr. Courtney is an Advanced Liberal.

Found a Body in a Barrel.

NEVADA, Mo., March 10.—There is considerable excitement at Bronaugh, Vernon County, over the finding of a body doubled up in a coal-oil barrel. The man is unknown. The police are making an investigation and hint at a sensation.

A Chicago Foundry Burned.

CHICAGO, March 10.—The extensive foundry plant, occupied jointly by Harry Perry and the Challenge Machine Company, burned to-night. Loss \$75,000, partly insured.

Cardinal Gibbons' Trip to Rome.

BALTIMORE, March 10.—Cardinal Gibbons leaves New York for Rome the first week in May, and Rev. Cornelius F. Thomas, rector of the cathedral, will accompany him.

Gresham Is Better.

WASHINGTON, March 10.—Secretary Gresham's condition continues to improve, it is hoped that he will be out to-morrow.

WANTS MORE TIME.

The Assembly Is Not Yet Ready for an Adjournment.

MUCH BUSINESS ON HAND

It May Be Necessary to Continue the Session for Another Week.

SEYMOUR'S STRANGE BILL.

The San Bernardino Senator's Bill Which Is in Conflict With Federal Statutes.

SACRAMENTO, March 10.—It was decided by the Senate Judiciary Committee to-night to fix arbitrarily the classification scale of the county government bill.

This was the subject which was referred to the Judiciary Committee last night by the Senate. A proposition was offered to estimate the population of the various counties by multiplying the vote cast for Governor in the last general election by five. This was objected to as an unconstitutional provision. In order to determine the class to which a county shall belong the committee estimated a population for each classification, so that practically the estimate is made for each of the fifty-seven counties.

In some instances the last Federal census figures are taken for the basis of the estimate. This was the case in San Francisco, as the first class is determined to have a population in excess of 298,000. Los Angeles is made the second class, with a population estimated at 124,000, and Alameda takes third rank, though the actual difference in population between the two counties is a slight one.

Senator Beard and Assemblyman Fassett were discussing the salary schedule for Alameda County to-day. Assemblyman Fassett thinks the salaries are too high and will make an effort in the lower House for a reduction.

The talk of an early adjournment is dying out. The really important bills to be considered are the county government bill, the general appropriation bill, the National Guard bill and the bill to enable the valley road to secure terminal facilities in San Francisco. They might be disposed of this week, but hardly before Saturday, so there is little likelihood of the Assembly concurring in the Senate resolution to adjourn on Thursday.

Many of the Assemblymen who have local bills in which they are deeply interested and see little hope of securing their passage are talking to-night of continuing the session into next week.

A LANDSMAN'S MARINE BILL

THE PROPOSED LAW IN CONFLICT WITH FEDERAL STATUTES.

SACRAMENTO, March 10.—This is the text of a queer proposition advanced in a bill framed by Senator Seymour of San Bernardino:

Section 1. That a new section be added to the Political Code, to be known and numbered as Section 2466½.

Sec. 2. Section 2466½. All vessels entering any port or harbor in this State, built on the Pacific Coast, or whose home port is in this State, shall be exempt from all the provisions of Section 2466 of the Political Code.

Sec. 3. All acts or parts of acts in conflict with this act are hereby repealed.

Sec. 4. This act shall take effect and be in force from and after its passage.

Obviously the bill has for its object the worthy purpose of encouraging the home merchant marine. The effect of the bill would be to exempt vessels referred to in the act from the pilotage charges collected on foreign and Atlantic shipping coming to San Francisco or other California ports. But there is a snag which the bill will encounter in a United States statute.

An act relating to pilots and pilot regulations approved April 13, 1890, by the President of the United States, reads as follows:

Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled, that no regulations or provisions shall be adopted by any State of the United States of America which shall make any discrimination in the rate of pilotage or half pilotage between vessels sailing between the ports of different States, or any discrimination against vessels propelled in whole or in part by steam or against national vessels of the United States, and all existing regulations or provisions making such discrimination as herein mentioned are hereby annulled and abrogated.

Notwithstanding this plain Federal statute, an attempt is being made to pass the bill. It has been made a case of urgency on the Senate floor, has been read the first time, and will come up for second reading to-morrow. It also has a favorable recommendation from the Committee on Labor and Capital.

COUNTY DIVISION AGAIN.

ANOTHER EFFORT TO BE MADE TO PASS DAVIS' BILL.

SACRAMENTO, March 10.—As stated in the CALL recently, another attempt to pass a general county division bill is to be made. The bill introduced by Assemblyman Davis, which was withdrawn when Senator Linder's bill was killed in the Senate, has been restored to the file and will come up for consideration to-morrow night.

THE FORESTRY STATIONS.

THERE MAY BE NO APPROPRIATIONS FOR THEM.

SACRAMENTO, March 10.—Representatives of the State University are fearful that they may have the forestry stations left on their hands without a sufficient appropriation to carry them on.

The stations were forced on the university two years ago, with an allowance so small that two deficiency bills, amounting to \$1000, had to be incurred to keep the

property from going to rack and ruin. The money was paid out of the college coffers, thus practically making the regents loan it to the State. They are averse to repeating the experience, and if they find the Legislature unwilling to grant the necessary appropriations they will ask for permission to dispose of the property, as it is too valuable to be allowed to go to waste.

The appropriation bill has passed the Assembly, but some opposition is anticipated in the Senate.

SACRAMENTO IS GRATEFUL.

PICNIC TO ASSEMBLYMEN FOR VOTING FUNDS FOR A FAIR.

SACRAMENTO, March 10.—Sacramento is grateful to the San Francisco delegation for voting for the \$40,000 appropriation for the State Fair. As an acknowledgment of this, Assemblyman Brusie of this city took the delegation out to the Haggin ranch on a picnic. A party of sixteen accepted the invitation and were driven out in a four-hand. They spent the day in looking at the trotters in the stables and had an elaborate lunch that was furnished by their host. Those in attendance from San Francisco were: Messrs. Devitt, Wilkinson, Zocchi, Devine, Healey, Coghill and O'Day.

ATTEMPTED TRAIN WRECKING.

Robbers Piled Ties on the Track, but Got Nothing.

VALPARAISO, Ind., March 10.—An attempt was made last night to wreck the midnight passenger train on the New York, Chicago and St. Louis Railroad, about five miles west of this city.

A pile of ties had been placed on the track, which was struck with great force by the engine, knocking it from the track and plowing up the track for about 200 yards before the train could be stopped. None of the passengers were injured. It is supposed to have been the work of train robbers.

STEEL WORKS TO RESUME.

Bethlehem Operators Will Begin on a Big Rail Order To-day.

BETHLEHEM, Pa., March 10.—The Bethlehem Iron Company to-day notified 1000 steel-workers to report to-morrow, when operations in the steel works will resume after two months' idleness. Work will begin on a 12,000-ton order of rails for a Georgia railroad.

SUICIDE OF AN IOWA FORGER.

A BLACKSMITH DEFRAUDS A BANK DURING A PERIOD OF THREE YEARS.

WHEN AN OFFICER TRIES TO ARREST HIM THE CRIMINAL SHOTS HIMSELF.

OMAHA, March 10.—At Cromwell, a little town near Creston, Iowa, Dave Blossar, a prominent citizen, committed suicide yesterday while an officer was trying to arrest him. It developed to-day that Blossar was a forger, but to what extent is not definitely known and probably never will be.

The Creston National Bank became aware that it had collateral on Blossar that was forged and the investigations revealed that the populations of Blossar extended over a

YOUNG GIRLS RIOT.

Inmates of the Illinois State Home Break Loose.

THE MATRON THE CAUSE

Thirty-Four Juveniles Hold Full Possession of the Place.

THE POLICE CALLED UPON.

The Ringleaders Battle and Demolish the Furniture in the Room.

CHICAGO, March 10.—Riot broke loose in the Illinois State Home for Juvenile Female Offenders on Indiana avenue to-night.

Thirty-four girls ranging in age from 10 to 18 years rose in rebellion against the matron, Mrs. Dayton. Mrs. Dayton and her assistants were powerless to control their charges, and were compelled to shut themselves in rooms to escape their almost frenzied assailants. The girls went through the house breaking furniture and windows, and smashing crockery and everything they could lay their hands on.

The police were summoned and restored order, but had no easy time, as the ringleaders fought desperately. Four of the most prominent of the girls were arrested. The troubles arose over the punishment given by Matron Dayton to Mamie Davis, 16 years of age. According to the girls, however, the uprising was due to a great dissatisfaction among the girls over their treatment in general.

It arose particularly because of a system of punishment which included imprisonment in a dark room 10 by 12 feet in size, the culprit being secured to the door by a heavy chain and also a system of dieting in which the offender was not allowed meat and was half starved.

DOCKERY'S BIG SAYING.

The Joint Committee's Report Shows Government Economic Reductions.

WASHINGTON, March 10.—A review of the work done by the Dockery Joint Commission of Congress, created for the purpose of inquiring into and examining the status of the law organizing the executive departments, has been printed. The greater number of the recommendations of the commission so far have been put into practical operation and have been from time to time made public. The review shows that the entire cost of the commission aggregated \$41,264, while the actual annual reductions in the Government expenditures made as a result of its work amount to \$607,591.

"The reduction," the review continues, "is not for the time being only, but will continue through each of the coming years. The commission, however, feels that the expenditure of public business and added security to the Government in its methods of accounting under the new systems inaugurated would have fully justified its existence, even if there had been no diminution in expenses."

A census of the departments held here at the direction of the commission discloses the fact that in the executive departments and other Government establishments are employed 17,999. There are 8027 in the class subject to competitive examination preliminary to appointment, and 3365 of that number entered the service after such examination, and that of the whole number employed 5610 have from one to nine relatives each in the Government service at Washington.

The commission also reported a concurrent resolution which provided for the enrollment and enrolling of Congressional acts by printing, which received the approval of both houses, and the commission says its value, from the standpoint of both accuracy and economy, is illustrated by the fact that not a single error has occurred under the system up to this time.

Much space is given to a recital of the benefits which, the review asserts, have been accomplished as a result by the commission and subsequently incorporated in a bill approved by the President July 31, 1894. The estimated annual saving resulting from this reform is put at \$239,430.

Recommendations made by the commission and not acted on relate, among others, to the reorganization of the office of supervising architect, contested land cases, repeal of the land contest act, transfer of duties of receivers of land offices, public surveys, abolition of the office of solicitor of internal revenue, bonds of Government officials, checking of money orders, abolition of naval officers at all ports and the establishment of a substitute therefor in New York, and writing and recording official letters. These reforms, the commission estimates, would effect the annual saving of \$449,925.

CHANCE FOR INVENTORS.

Italy Will Use American-Built Frame Houses, if Cheap.

WASHINGTON, March 10.—United States Consul Bruhl at Catania, Italy, has discovered a fine market for ready-built American frame houses, of from two to five rooms, well braced, of low price. The recent and frequent earthquakes in Sicily and Catalonia have destroyed many buildings poorly braced.

To begin with, after making inquiries, the Consul is convinced that the people would readily adopt the American structures as better calculated to resist shocks. A member of the Royal Earthquake Commission has interested himself in the subject, and the Consul is anxious to obtain illustrated catalogues from the American manufacturers to lay before the commission.

WILL REVIVE A SCANDAL.

Mrs. Glascock Proposes to Push the Proceedings for Divorce.

WASHINGTON, March 10.—Mrs. Carrie M. Glascock, whose allegations concerning Senator Stewart created a sensation in Washington several months ago, announces that she will prosecute the proceedings for divorce against her husband, Glascock having withdrawn his own petition for divorce. This will reopen the old scandal and will be embarrassing for Senator Stewart and his family, who allege that the Glascock people are in conspiracy to extort money from the Senator.

Missed the Eclipse.

WASHINGTON, March 10.—Preparations were made at the observatory and other places in Washington to observe the total

eclipse of the moon to-night, but owing to the foggy weather and the quantity of clouds in the sky, no accurate views could be made. Even the exact time of the beginning and ending could not be learned.

GERMAN LABOR EXCHANGE.

Employer and Employee Met Through the Medium of Postoffice.

WASHINGTON, March 10.—The United States Consul at Luxembourg outlines the scheme of an international labor exchange, which has proven very beneficial in that grand duchy in facilitating the employment of labor. It was instituted in 1892 and every postoffice co-operates in the transmission of offers made and applications for employment between wage-payers and wage-earners.

Offers and applications are addressed to the nearest Postmaster on special postal cards and the applications are registered. The lists are publicly posted in all post-offices, in railway stations, hotels and public houses. The postoffice assumes no responsibility in the business beyond the transmission and posting of applications and offers. The Postmasters inform an applicant by postal card when an offer of employment is received. A statement attached shows that during two years there were received through this system 1904 applications for employment and 1701 of these secured places. During the same time 3514 employers applied for help and engaged 4372 persons.

The Perry at Valparaiso.

WASHINGTON, March 10.—Captain Shepherd, chief of the revenue marine service, received cable dispatches to-day stating that the revenue cutter Perry, which is en route from New York to San Francisco, has reached Valparaiso.

Died From a Dog Bite.

READING, Pa., March 10.—Mrs. Susan Dautrich, aged sixty years, who was bitten in the hand by a dog six weeks ago, died here. She showed all the horrible sufferings of a person afflicted with rabies.

SWEDENBORGIAN PHILOSOPHY.

Lecture by Rev. Higgins on That Subject Last Night.

At the First New Jerusalem Church, corner of O'Farrell and Webster streets, Rev. F. L. Higgins delivered last evening the fourth of a series of lectures on "Swedenborg," and what he has done for the world, presenting particularly the philosophic aspect of his subject.

"The province of philosophy," said the speaker, "is to expound the whence, what and why of creation, and to show the harmonious relation of the chief essentials of its complex organization. We have had the theistic, idealistic and materialistic schools of philosophy, but Swedenborg presents to the world a new and entirely distinct school. He shows that theistic philosophy is true in so much as it recognizes causes back of creation, but false in declaring that something came from nothing, and that materialism errs in regarding nature and its laws as being the embodiment and sole contentment of the ultimate first cause of creation. Swedenborgian philosophy recognizes that divine love alone had power of creating beings capable of consciously receiving and reciprocating that love, and hence the human race began."

American Band Concert.

Many who were disappointed in not hearing music in Golden Gate Park yesterday made up what they lost by visiting the Mechanic's Pavilion and listening to the music by Roncovieri's American Band. The attendance was unusually large, the music charming, and the pictures which were thrown on the large screen above the musicians to illustrate several of the numbers were appropriate and in every instance shown at precisely the right moment. Roncovieri's idea of music and pictures has taken a firm hold on the people, as is evinced by the increased nightly attendance. Another excellent programme to-night.

Along the Water Front.

The ship Ellwell arrived from Nantamo yesterday afternoon, having made the round trip in nineteen days. The Argon was towed from Harrison street to Stewart and the Laurelbank from the gas works to the ship.

The ship Gunlord goes from Sausalito to McNear's and the William Law to sea to-day.

OBJECTED TO KISSING.

Actress Dismissed in Consequence, and Europe Is Disturbed.

A strange tumult is raging on the Continent. It has been agitating Vienna and setting Berlin by the ears, and now it has spread to England.

And it all arose from a mere trifle—the kissing of an actress on the stage. In the course of a play it became necessary for a certain actor to repeatedly embrace a certain actress. The actress had a husband. The husband objected.

So the actress refused to be kissed, and, in consequence, dismissed from the theater. Hence tears, recriminations and tremendous controversies on kissing.

Those who have acted much will probably agree in thinking that to object to a stage kiss is absurd. It means nothing, and therefore is nothing for things are greatly what we create them by the thoughts which we connect with them.

To one person a kiss is an epoch; to another merely a bore. The first kiss of a lover is an episode never to be forgotten by a girl. The thousands of kisses which have been written upon it by lady novelists. When Faust kisses Marguerite we feel that the first word of a great tragedy has been written.

A refined girl thinks a kiss an intense intimacy, intolerably insulting, unless made beautiful by a certain train of feeling that prompts it.

But when we come to the lower classes we find kissing a sort of universal habit, almost like eating, or getting up in the morning.

The coster girl, beneath her waving curls, is kissed by all and sundry in full public view. It is a sort of badge of honor. She is not necessarily at all immoral, though doubtless Mrs. Grundy regards her with a pious horror.

That kissing was indulged in freely in former times by very respectable young people we learn from many sources; for instance, from the charming old song that our young girls are so fond of singing, "Come, lasses and lads."

The fancy positively reels at the thought of the amount of osculation that must have taken place. And yet which of us sitting at a concert and listening to the account of it all is shocked?

Old ladies shake their heads and think pleasantly of their youth, when, by the way, they never sat in arbores and did such things. Decidedly there is something ingratiating about the kiss.

But the stage kiss? What of that? In one opinion it is merely a fulfillment of a stage direction, and the husband who objects to it should at once remove his wife from the stage. To treat it as anything important is to make it make it objectionable.—Gentleman.

Electricity says there is nothing theoretically improbable in the statement that an Ohio convert has invented a battery which converts sound into electric power by a device which makes it possible to operate an ordinary call bell by simply clapping the hands in front of the battery.

Visiting-cards, invitations, writing paper, envelopes, and all ladies' fine stationery at reasonable prices. Our new Columbia battery, a 50-cent box for 35 cents, is the seller now. The Columbia visiting and correspondence cards are the cheapest and best. Sanborn, Vail & Co., 741 Market street.

ANGER OF FRANCE.

She Sends a Passport to the Representative of Venezuela.

RUPTURE OF RELATIONS.

Columbian Rebels Attack Boca del Toro, but Meet With Defeat.

THE ATLANTA LANDS MARINES.

Protection Given by the Cruiser's Men to the Interests of Americans.

PARIS, March 10.—As an outcome of the trouble between Venezuela and France, growing out of the former's action in handing his passport to the French representative at Caracas, the French Government has sent a passport to Dr. J. Gilfortou, the Venezuelan charge d'affaires.

THE COLUMBIA REVOLUTION.

Cruiser Atlanta Lands Marines to Protect Americans.

COLON, March 10.—The rebel forces under the command of Reiz Garcia forced an attack on Boca del Toro, about 100 miles north of this city, on Friday last, but were repulsed by the Government troops. An attempt was made to set fire to the town, but this was also defeated. Eleven of the rebels, including Garcia, were killed. The Government loss was five killed and twenty wounded.

The United States steamship Atlanta landed a force of sailors and marines to protect American interests.

DEFEAT OF CUBAN INSURGENTS.

Government Troops Attack Them and Inflict Heavy Loss.

MADRID, March 10.—Dispatches received here from Cuba state that after their defeat by the Government troops at Baire and Los Negros the rebels occupied new positions, in which the Government troops again attacked and dispersed them, inflicting heavy loss.

MORE JAPANESE VICTORIES.

Capture of Coast Forts and Rout of a Chinese Army.

YOKOHAMA, March 10.—On Thursday last the Japanese captured the coast forts near Yinkow, the port for New Chang. The forts held out after the capture of Yinkow.

On Saturday the first division of the Japanese attacked a force of 10,000 Chinese under General Sung Thien Wang Twai. For four hours a fierce battle waged, but the Chinese were defeated after losing 2000 killed or wounded. The Japanese loss was only ninety killed or wounded.

General Nodzu, who succeeded Field Marshal Yamagata in the command of the first Japanese army, has been promoted.

NEW YORK, March 10.—A cablegram to the World, dated Tokyo, Japan, March 10, says: China has been informed in general terms of the conditions upon which Japan will consent to peace. Japan has been notified that China is ready to accept these conditions and to sign a treaty. The correspondence by means of which this agreement was arrived at, was carried on through the United States Ministers to the two countries; Minister Dun at Tokio and Minister Charles Denby at Peking.

Did Not Fire On an American Ship.

MANAGUA, March 10.—Officials of the British legation state there is absolutely no truth in the reports of the firing on an American vessel by a British ship.

DEBT OF NEWFOUNDLAND.

THE FINANCIAL SALVATION LIES IN UNION WITH THE DOMINION.

ENGLAND IS WATCHING THE NEGOTIATIONS WITH MUCH INTEREST.

LONDON, March 11.—The Times, in an article on Newfoundland, says that the negotiations looking to a union with Canada will be followed here with sympathetic interest. Canada can assume the responsibility for Newfoundland's debt without creating the awkward precedent that Great Britain would create by similar action.

To enter the Dominion is a step forward both in power and in importance which Newfoundland would have been well advised to have known in the days of her greatest prosperity. Now she is to be congratulated if such a way should be opened out of her misfortunes.

The details of the French question can be discussed when Canada's readiness to federate shall be assured. In view of the probability of the elections changing the Government of Canada the Newfoundland authorities would be unquestionably wise not to lose time in completing the negotiations.

No other permanent remedy for their troubles is likely to be as good as federation.

THE ENGLISH MARKETS.

A Plethoric Condition Exists in the London Money Market.

LONDON, March 10.—The money market last week relaxed into its former plethoric condition. The Rothschilds' Chilean issue was fully covered within two hours. Any amount of money was obtained at 1-1/2 per cent. The Canadian Pacific collapse had a demoralizing effect and drove all business in the direction of gilt-edged securities and the mining market, where another boom seems to have commenced. Buying orders poured in from the Continent and immense blocks of the shares of South American ventures were easily placed by syndicates in Paris at a profit.

Foreign securities remained firm in anticipation of the Rothschilds' carrying through the conversion into 3 1/2 per cent of £21,000,000 of Russian 4's.

Home railway securities were quiet, the traffic reports and Board of Trade returns being unimpressive.

Mexican and all South American securities, except Chileans, were weak. Canadian Pacific fell ten points, and although a rumor that the Dominion was about to issue a new loan was denied, Canadian Pacific remained very weak.

American railroad securities were also in the worst condition. Heavy sales from Wall street and rumors of reduced dividends depressed the market all around.

The European Cotton Trade.

MANCHESTER, March 10.—There was a

considerable increase in the activity of the cotton market last week, the stiffness in the prices of cotton inducing holders of discretionary orders to press in the best possible manner. Prices generally hardened. Business was well distributed over Indian, Chinese and Korean markets, and there were moderate sales at South American and other minor markets. The home market continued fair. Yarns were firm, with considerable forward business. Strikes are now considered impossible, owing to the want of unity among the master spinners. The Continental cotton trade is active and healthy.

THE SASSOUN MASSACRE.

Surviving Armenians Corroborate the Story of the Butchery.

LONDON, March 10.—A dispatch from Moosh to the Telegraph says that a deputation of survivors of the Sassoun massacres in Armenia appeared before the commission and narrated the whole story of the butchery. Their statements fully corroborated the worst details that were published. The evidence made a powerful impression on the commission.

Other dispatches to the Telegraph, declare that 600 eye-witnesses, who have been examined, all deny that the Armenians provoked the Sassoun massacres and exonerates the Kurds from the brutalities.

Launch of the Czar's New Yacht.

COPENHAGEN, March 10.—The new Russian imperial yacht Standard, which is building here, was launched to-day in the presence of the King and Queen of Denmark and other members of the royal family.

Rumors of More Armenian Disorders.

LONDON, March 11.—A special to the Standard from Constantinople says that unconfirmed rumors are current of fresh disorders at Kharasir, in the valley of Sivas.

IMPORT OF FIGURE HEADS.

HEROIC OR DEIFIED ORNAMENTS OF ANCIENT MARINE ARCHITECTURE.

THE GRECIAN WARRIOR UNDER THE BOWSPRIT OF THE SPARTAN.

The principal and prettiest ornament of that graceful and beautiful fabric, a ship, is the figurehead—that always noble piece of carving on the bow just under the spirit. It may be the grand front of the eagle, the

THE FIGUREHEAD OF THE SPARTAN.

[Sketches for the "Call" by W. A. Coulter.]

lion, a hero, a god, or merely flowing lines of artistic beauty falling away from the upper tip of the stem, as in the "fiddle-head" often seen on ships.

The majestic place of the figure on the forefront of the vessel's hull, as it is further clothes it in the attributes of the heroic and endows it apparently with something apart from the base material of its construction. Always looking ahead with gaze inexorable over the inscrutable mysteries of the sea one would feign such voiceless, lifeless sphinx of the ocean what it sees beyond the round rim of the watery world, but no answer ever comes from the immovable lips, and the noble face forever is turned toward the point of its seeming longings.

The figurehead arose to its commanding position on the vessel's prow far back in the dim dawn of marine architecture, thirty centuries before Christ. The prehistoric galley, feeling its way across the unknown seas, was guided and guarded by the tutelary divinity of the early sailor, and the god's head or figure adorned the head or beak of the rude craft. The capture of this sacred ornament was one of the objects of the foe, and the return of a conquering fleet the beaks of hostile craft were carried as trophies in triumphal processions.

In modern shipboard the figurehead is still an object of significance and veneration, for the old, old traditions are never so strong in the human soul as they are in that of the sailor. The deep and dreadful mysticism of the sea wraps him around as with a garment, and he lives always in the environments of the supernatural.

The figurehead of the ship Spartan, of this port, is a noble form of the old Grecian warrior that filled the phalanxes of the Greek fleet, and which is still the theme of heroic song and story. Even in the rudely carved face are the lines of the indomitable courage that swept the scouring squadrons of Athens' barbarian foesmen from the seas.

Typical American Face.

It may be worth while to add that once when I said, "How unlike each other are our American faces, yet how quickly we recognize any one of them among European faces?" I wish I knew why," a foreign friend replied that she could tell me why. "The typical American mouth," she said, "is more sensitive than that of other races and the chin is slenderer, but the main peculiarity is the shape and setting of the eyes, and especially the modeling of the cheekbones."

"You have high cheekbones, but they are narrow, while when they are high in other races they are broad and flat, as with the Japanese, or square, as with the Scandinavians."

I am afraid that she thought we looked a little foxy, but a fox's face has beauty, and shows a keen sense of humor, as well as its own sense of cleverness, and besides she knows that it is merely a mask.

The Century.

A cough needs quick and effective treatment. R. Bull's Cough Syrup furnishes this.

STATE AND CHURCH.

Mgr. Satolli Gives His Views on the Subject to Guatemala.

PLEA FOR CONCESSIONS.

Desires Changes in the Laws That Militate Against the Church.

SEEKS DIPLOMATIC RELATIONS.

Intercedes for the Pope in the Matter of Having a Minister at the Vatican.

NEW YORK, March 10.—An interesting and important communication from Mgr. Satolli to the officials of Guatemala concerning that country's following the course of Nicaragua in sending to Rome an envoy extraordinary and minister plenipotentiary, has been made public. In the course of the document reference is made to the propriety, under the United States constitution, of official relations between Washington and Rome, and an interpretation given to that feature of the constitution relative to the separation of church and state.

Mgr. Satolli's letter was written while negotiations were pending about four months ago. It refers at length to the difficulties in church administration in Guatemala, and suggests that certain changes desired by the Government should be accompanied by concessions to render the church in Guatemala. The document says:

In the first place allow me to reflect that to re-establish diplomatic relations between the Holy See and your Government a concordat would not be necessary, but that they could be re-established and maintained without it. Besides, it is well to reflect that the holy father enjoys always, in fact and by international right, the prerogatives of sovereignty.

In the second place, the separation between the church and the state (sanctioned by the constitution) excluded the action of one power

as exceptional, possibly accounted for by temporary circumstances, or, that the Government might secure itself against supposed adversities, among which, unfortunately, the Catholic church in Guatemala in those times was believed to be, because otherwise it would be impossible to understand how such decrees and laws accord with the separation of the church from the state, honestly and rationally considered. And therefore with a constitution so established as to be immutable itself in the republic of Guatemala, it will not be difficult to become convinced that the laws and decrees referred to above should be at least modified, or that in the matter of these laws and decrees, there should be some amicable adjustment with the Holy See. The constitution and the Government would thus receive a most desired seal and guarantee for the future through the desired agreement between the Government and the Holy See, an agreement that harmonizes excellently with the declared separation between church and state and that would bring peace to the souls of the population of Guatemala.

ADVENTURES OF A BELL.

In a Church Steeple, Then Buried in the River; Now Is in Mormondom.

There is a bell now hanging over a private schoolhouse of a Mormon prophet, in Salt Lake City, which has a curious and somewhat amusing history. It was the first church bell that ever rang out over the plains of Iowa, having been erected in the tower of the First Presbyterian Church of Iowa City.

A few years after its installation a trouble arose between the pastor and the people over the question of salary, which resulted in the former's making an attempt to capture and carry away the bell to "square accounts." The good man had gone so far as to secure a ladder and ascend to the roof of the church, when the church officials got wind of the affair and rushed to the rescue of their property. They permitted the bell to be lowered to the ground, but then seized upon it, loaded it in a wagon and drove away. The ladder was also simultaneously removed, leaving the enraged person wildly gesticulating from his pulpit in the tower. This exciting event in the early history of Iowa City was promptly embalmed in verse by a local poet.

The subsequent history of this same bell has a touch of romance about it. The "pillars" of the church, who took away the prize in the wagon, carried it, as afterward appeared, to a river near at hand and buried it in the channel. As it happened, one of the citizens concerned in the business afterward developed a sympathy with the Mormons. He imparted information concerning the bell to another of like sympathies, and through them its removal was effected. It was conveyed secretly to the vicinity of Bloomington—now Muscatine—on the banks of the Mississippi River, and there deposited in the channel of a stream known as Devils Creek. Thence it was carried to a point near Montrose, Ill., where it remained for some years buried in the sand. It was then ex-

posed and carried by some Mormons to Kanab, in the neighborhood of Council Bluffs, from which point it was conveyed by them in their journey across the plains to its present resting-place. "It was not until twenty years after that the original possessors of the bell found out where it had gone. Upon the completion of the Pacific Railway some parties from Iowa City, in their journey across the continent, stopped off at Salt Lake City. There they discovered an old bell surmounting a private schoolhouse, and upon its margin the familiar words, 'First Presbyterian Church of Iowa City, 1846.' Notice of the fact was promptly communicated to the officers of the Iowa City Church. Correspondence was opened with the Mormon authorities, but so high was the value placed upon it as a spoil taken from the Gentiles, that, strangely enough, it was decided to let the old bell remain a voiceless trophy in the safe land of its captivity."—Providence Journal.

SMOKER'S CRAMP.

It Afflicts Those Who Roll Cigarettes and Has Appeared in Europe.

A new disease has appeared in Europe, which has been styled smoker's cramp. It is very similar in its effects to writer's cramp or scrivener's palsy.

The disease is caused by rolling cigarettes with one hand. For many years it has been common in Spain, although some smokers are so expert as to make a cigarette with a single twist of the fingers.

Since a law was recently passed permitting the manufacture of hand-made cigarettes large numbers of girls have been employed in rolling cigarettes by hand. It is among them that the disease has appeared.

In Spain, however, it is not confined to the cigarette girls, but it is a common ailment among the rest of the population who indulge in the fragrant but baneful papillo.

BATTLE FLAGS REMOVED.

Doric Hall Emblems Laid Away for an Indefinite Period.

The group of old battle flags which for almost thirty years have been the center of veneration in Doric Hall at the State house were last week removed. When they will be again displayed is uncertain. The work of removing them began early in the week under the direction of the sergeant-at-arms.

Each color was carefully wrapped in big squares of paper and laid away.

The reason for their removal is because that portion of the State house is to be rebuilt. The colors were placed in Doric Hall in 1866, just after the close of the war. In 1886, after part of them had fallen from their positions, they were rearranged.

Where they will be next displayed is not decided.—Boston Globe.

The consumption of coal by locomotives in the United States in 1893 amounted to 50,000,000 tons, or about one-third of the whole production in this country.

ORIZABA IN ERUPTION.

Portions of Old Mexico Endangered by the Volcano.

INHABITANTS IN TERROR.

The Alarm Is General in the Cities of Cordoba, Orizaba and Kalapa.

Purely vegetable, mild and reliable. Are a cure for Indigestion, Biliousness and Disordered Liver. Speedily cure Sick Headache, Loss of Appetite, Dyspepsia, Constipation, by regulating digestion.

The San Francisco Call

MONDAY, MARCH 11, 1895

Look ahead.
Catch on to the revival.
Cheer up, cherries are ripe.
Set an example to your neighbor.
Truth hurts nobody, but it scares fools.
Give another lift to the competing road.
Every prospect pleases and only the streets are vile.

Good news comes from all sides, and increases as it comes.
Give the silurian a show to reform by showing him how to do it.

In a progressive community a good leader never fails to get a good following.

The elevation of the community depends upon the uprising of the right people.

The San Joaquin road must secure a good terminus in order to make a good beginning.

The competing road strikes while things are hot, but it was the monopoly that made them hot.

As London papers are advising Cleveland to hold an extra session, we may possibly get it.

Hollister is little, but she can crow \$50,000 worth for the competing road, and don't you forget it.

The new national party has already developed enough questions of policy to split it clear up the back.

A good many people may still go to Oakland to sleep, but it is not a sleepy place by any means just now.

The two things most needed this week are a good spring shower and the adjournment of the Legislature.

There are some statesmen who believe the best way to get even with railroad bills is to demand free passes.

Statesmen call Cleveland a fisherman, and the fishermen call him a politician. No class cares to own him.

Los Angeles is to have two competing pipe lines from the oil district. That will grease the wheels of business.

The Senate's spasm of economy comes too late to do it much credit. Too much death-bed repentance about it.

Every county in the State is getting into line for progress, and a good many of them are striving for the front rank.

By setting to work on the streets the men who are now idle, the ways of life would be made better for everybody.

Twelve Kansas counties have notified the Governor that they need no more outside aid. That promises Republican gains.

The few legislators who are opposing the valley road at Sacramento are making biographies they will be glad to suppress hereafter.

About the time Lord Rosebery breaks down under the strain of the Premiership old Gladstone will be ready to step in and relieve him.

We call the attention of the silurians to the fact that they could sleep easier if there were fewer cobblestones to make the car of progress rattle.

Rev. Dr. Parkhurst of New York is going to clean out St. Louis. San Francisco will do that job for herself without extra-State or legislative assistance.

Who can doubt that the world is growing wiser when he notes the number of Eastern statesmen who are coming over to the side of free silver?

The fame of Trilby may not be permanent, but it will be stationary in this country, for a railway company in Louisiana has named a station after it.

Now that everything is moving we ought to have an extra session of Congress to force Cleveland's hand and keep the Government in line with the people.

The people of Alameda County will have a good memory for the legislators and lobbyists who have combined to maintain extravagant salaries for their county officials.

The big floating drydock that will soon arrive here from Benicia is an additional commercial facility which we shall need in connection with reviving California trade.

In deciding that whisky cocktails are an American manufacture within the meaning of the law, the Secretary of the Treasury must have been guided by sad experience abroad.

Boston sympathizes with San Francisco in fighting for local self-government, for it seems the Bostonians are not permitted to regulate even Sunday entertainments without legislative interference.

Eastern exchanges that have found California references to midwinter flowers a trifle monotonous, will take notice that we have changed the subject and are now talking of cherries and strawberries.

Whatever may be the backing of the Napa Valley electric railroad scheme, it offers a hint for many minor California valleys in connection with the building of competing local roads throughout the State.

Kaiser Wilhelm will not assist the agrarians in shutting out American grain from the German market. He may not always know which side of his bread has the butter on, but he knows where to get the bread.

They are having a lively controversy in the East over this state of facts: General Halleck died, leaving a widow and a large fortune; General Culom married the widow, got the fortune, and, on dying, left a large portion of it to build at West Point a memorial hall to be called by his name. The point in dispute is whether the hall should not be named after Halleck, who made the money, rather than after Culom, who spent it.

IT SHOULD BE PASSED.

The bill which empowers the Board of Harbor Commissioners to lease the unused lands of the State on the water front for railroad terminal facilities is by far the most vital measure with which the present Legislature has had to deal. Its terms are short and simple and easily understood. Its scope is bounded by a single object, which is the grant of a proper favor to a competing railroad. By its limitations the fullest safeguards are set up against any occupation by foreign corporations or by monopolies already possessing terminal facilities, of the lands of the State. The obvious and the only purpose of the measure is to enable the new railroad to obtain an adequate terminus in San Francisco, and for that purpose to lease from the State its vacant lands along the water front for a term of years.

This measure, with such an object and with such limitations, the Legislature will have no excuse for failing to pass to-day. No argument worthy of the name has been adduced against it. None can be. To let these lands lie waste and idle when there is so desirable an applicant for their use would be an infinite folly. To refuse to permit the valley railroad to lease them for a fair rental and for the purpose of a terminus would, under present conditions, be worse than a crime. The possession of terminal facilities in San Francisco is absolutely essential to this great project for a competing railroad, without which its powers as a competitor would be hampered and its ability to fulfill its object seriously impaired.

The people of California desire that no impediment be placed in the path of the competing railroad and demand that every aid be offered which the power of the State can give. No member of the Legislature can afford to be heedless of this desire or deaf to this demand. The Assembly has already shown its favor to this measure and will doubtless stand by its strong majority of Saturday when the vote upon final passage occurs to-day. The action of the Assembly has met with the unqualified approval of the people of California, and in that action it is the universal demand that the Senate shall concur. San Francisco, whose merchants have given so liberally in aid of the competing railroad, wishes its terminus to be here. The interior also desires the new railroad to be able to bear its freight and passengers directly into the heart of the great city, where the centers of traffic are. All classes of our citizens are pleased to see the prospects of this great enterprise advanced in order that at the earliest day possible construction may be begun.

The people call upon their representatives in Senate and Assembly to give them relief. Pass the bill, and place it in the hands of the Governor for his approval to-day.

RELIEF AT HAND.

Of all the news of the past week, hardly any portion could have given more satisfaction and complete repose to the general newspaper reader than the announcement that Li Hung Chang has received back his peacock feather and started off to make peace with Japan. This news awakens sweet hopes of a cessation of the interminable, voluminous, insufferable reports, rumors, contradictions and recollections from the Orient that for months past have almost made newspapers unreadable.

Conventional usage will doubtless compel history to record the fracas around the peninsula of Korea as a war, but there never was any war. There was hardly a fight or even a kick from behind. Some drums were beaten, some powder exploded, some yellow fellows ran and some others ran after them, and behold the wonderful battle was done! Over these unimportant occurrences, however, for months past, some highly paid gentlemen known as war correspondents have wasted a mass of words and an eloquence of description that at times were almost worthy of an international boxing match or a grand aggregation of chicken fights.

The amount of journalistic energy thus wasted and wasted in trying to infuse something of the liveliness of a sensation into the events in the Orient, would have been sufficient if employed in that way to build up a public sentiment in favor of the anti-high hat bill and make a statesman's reputation for every legislator who voted for it. It was in vain, however, that swelled head lines and nightmare cartoons were resorted to to attract the attention of the public to the wavering fringes. The reader preferred even the tongue war of Corbett and Fitzsimmons to the imbecilities in the Orient, and it was not until the war correspondents got up a little riot among themselves and began to describe the reports of one another in the hottest parliamentary language that the public took any interest in what they had said or left unsaid.

About the only catastrophes of the ruction that made any impression on the public mind were the losses to Li Hung Chang of his peacock feather and his yellow coat. These occurrences did indeed cause little thrills of expectancy to run along the ossified railway of the public backbone and carry something of interest to the public brain. People casually watched to see if Li, having lost his yellow coat, wouldn't lose his yellow head. They also took an interest in reports concerning the peacock feather. It is known to be very difficult to get the peacock plumes out of the head of the head, and considerable curiosity was felt to see what would come of the attempt in China.

Li Hung Chang, having now recovered his coat and his feather, all interest in the circus ends. Let there be peace between China and Japan, and peace also among the war correspondents. The latter, in particular, should cease their troubling and their vast expense of copy full of mutual contradictions. The American people wish American news, and it is time to wipe the Oriental froth off the face of journalism and give the space to live news of home affairs.

LOOKING AHEAD.

It is but a few months since the business men of San Francisco were wrestling successfully with the proposition to raise \$300,000 as a starter for the San Joaquin Valley Railroad. To-day, thanks to the brains, energy and example of a few leading men, they are gathering in the third million of dollars.

It now becomes evident that California only needs an example to start her on the high road to prosperity. Under the influence of San Francisco's action Oakland now comes forward with a subscription of nearly \$200,000 with the prospect of \$500,000 in the near future. These figures make the old \$300,000 mark for San Francisco look like a small matter, and so it was. It was

not a question of ability at all, but simply of waking up. Even little Hollister down in San Benito County now pledges \$50,000 with the prospect of doubling the amount. As Hollister pays \$500,000 annually for export freight, she may expect to get back her money the first year that the road is opened to business.

Within two or three weeks surveying parties will be in the field and then the question of route will soon come up for decision. It seems to be pretty certain that the line will fork at Fresno, one branch coming to San Francisco by way of the San Benito and Santa Clara valleys, the other continuing down the San Joaquin to the water. There is room enough for terminal facilities on both sides of the bay.

Regarding this matter of terminals our people should not lose sight of one consideration. They are working now for both the present and the future of San Francisco. For the present they will seek to establish the best terminal facilities that can be obtained under existing conditions. For the future they must keep in mind that all roads once led to Rome, so all roads must eventually lead to San Francisco. With the way open up the peninsula to the south, and a cantilever bridge from Goat Island the future of this city as a railroad center will be assured. Our people will never again brook the cry once raised that "San Francisco is on the wrong side of the bay."

A FRIEND AT COURT.

Emperor William of Germany talks like a statesman. He declares that he "cannot help in making poor people's bread dear." This was said in reference to the grain monopoly bill directed against the importation of American wheat.

The German agrarian party hopes to push its ends by making the increase of the navy dependent upon the passage of its prohibitive measure. The Emperor represents its tactics. Perhaps he appreciates the fact that with the passage of the grain bill there would be little use for a larger navy. Germany's coats are of such a character that she has little need of a navy for their defense. Navy-building with her is largely a question of the protection of her merchant marine and growing foreign interests. By subsidies to shipping and cheap manufacturing she has won a large foreign trade which she hopes to increase. The Emperor evidently understands that the existence of that trade depends upon competition in prices with England and other manufacturing countries in the open markets of the world, and that in such a competition German workmen must have the advantage of cheap food. The question of the prohibition of American wheat will also enter into the discussion of this question in the Reichstag.

Our Government should make a note of the news from Germany in deciding upon a retaliatory policy in defense of American exports. The Emperor and the manufacturing classes of Germany are on our side as a matter of self-interest. Promptness and decision in asserting our commercial rights will turn the scale in our favor. The German Government will not care to face the double disadvantage of dear food and a restricted market in the United States. Let Secretary Carlisle officially notify the Treasury Department of German discrimination and let Secretary Gresham issue his notice of retaliatory duties, and we may look for a vote in the Reichstag against agrarian prohibition.

THE PACIFIC CABLE.

The incorporators of the Pacific Cable Company propose to go ahead with their enterprise regardless of the failure of Congress to pass their bill for a United States charter. They have received liberal offers of subsidy and patronage from France, Japan and Russia. Hawaii has long held out Government inducements for a cable.

It is desirable to push this matter without waiting for another session of Congress in order to get ahead of the British cable scheme. Every nation interested would prefer the American to the Canadian connection from both commercial and strategic motives. There is not business enough for two systems and the one first in the field will hold it.

France would no doubt especially favor the American scheme because of large French business interests, as well as the desire to be independent of British lines. A great French cable company started the line by laying a link from Australia to the penal colony of New Caledonia, mainly for the purpose of making work for its idle plant. Probably that company would continue the system to Tahiti and Hawaii on the lowest possible terms from the same motive. The French Government will aid the scheme for the double purpose of aiding French enterprise and establishing desired connections. There would then remain only the link between Honolulu and Monterey Bay. That should be the first laid, as it would most effectively cut off the British scheme. The route is already charted and the cable could be laid within a few months, while the route from Vancouver to Hawaii and thence southward has yet to be surveyed.

ENCOURAGE INVENTION.

A Santa Monica inventor is now exhibiting in this city a "wave motor," designed for the development of electric power, is intended to be set up off the ocean beach, just outside the line of breakers, where it will get the full effect of the ceaseless roll of the waves. Engineers are said to look favorably upon it.

Without knowing anything about the practical merits of this particular machine, it is safe to assume that sooner or later San Francisco will harness the ocean to her industries. Wave and tidal energy will be utilized for the generation of electric power. Whoever comes along with any invention to that end should have a respectful hearing. If his plan has practical value it will win its way. It not, it may at least point by its failure the way to the success of some other invention.

PERSONAL.

Dr. R. Mitchell of Ferndale is visiting in the city.

Dr. Ord of Pacific Grove is stopping at the Occidental.

F. P. Wickham, the Fresno banker, is registered at the Lick.

Aaron Smith, a railroad man of Los Angeles, is registered at the Grand.

N. B. Ambrose, a prominent merchant of Lockport, is a guest of the Grand.

W. H. Jack, a wealthy rancher of San Joaquin County, is a guest of the Grand.

C. O. Johnson, a railroad man from San Luis Obispo, is registered at the Occidental.

John M. Vance, an extensive lumber and mill man of Eureka, is in the city on business.

Speaker John C. Lynch of the Assembly occupied a room at the Baldwin Hotel yesterday.

Captain L. C. Brant is over from Angel Island, and is making his headquarters at the Occidental Hotel.

AROUND THE CORRIDORS.

"White-hat" McCarty, the racing man, who is a good judge of horseflesh, has demonstrated that the clothes do not make the man, nor do they make him different from his real self when dressed other than in every-day apparel. The practical demonstration occurred recently when Lord Talbot Clifton informed the man of white-hat proclivities that he was about to give a banquet, and asked the pleasure of McCarty's presence.

"And do not forget, Mac, that it is a full-dress affair."

"What?" exclaimed the invited guest. "You are not living under the impression that I am a dude, are you?"

"No, no old fellow. Not by any means. It is simply to be in form, that's all."

"In form, did I hear you say? Well, it don't go, Mac. I am not the kind of a chump to put up ninety plunks for a suit of clothes simply to be in form. No, Clif, it gives me a pain to think of it. Come off, please, for a few seasons."

Lord Talbot called McCarty down by promising to get him a suit for that one occasion, provided he would wear it and pacify himself for a few hours by becoming a slave to custom.

"All right, Clif, I'll do it for you. Trot out your togs and get to business. Where do I dress?"

The Lord's eyes beamed with joy, and grabbed the man of white-hat proclivities by the collar.

For his services the Crimée her country gave her \$50,000. With this she founded the Nightingale Institute for Nurses, and has had the satisfaction of seeing it the parent of one of the humane movements of the age.

Supposed to be humorous.

Watts—I don't know that there is anything so horrible as being thrown into a shipwreck, isn't it half so horrible as being mashed to pulp in a railway accident.

Potts—That isn't it. The man who goes to the bottom of the sea can't be taken home and hauled to the cemetery behind a brass band.—Cincinnati Tribune.

Slug One—Ain't there a copyright law in this country?

Slug One—Of course there is. Why?

Slug One—Nothin', only I wish some one would call the attention of that new reporter to it. He's had his copyright only about three times in six weeks.—Buffalo Courier.

"I wonder," said the burglar, slipping the contents of the safe into a sack, "if I oughtn't honestly to pay an income tax on this?"—Chicago Tribune.

Trump—Mister, I'm a loafin' vagabone, an' I'm not askin' you to waste any good money on me.

Impatient citizen—Well, what is it you want?

Trump—But if you've got any Canadian 10-cent pieces you can pass 'em on me, mister. I'm no street-car conductor.—Exchange.

MAN'S DUTY TO HIMSELF.

The Rev. J. G. Gibson Discusses the Drink and Social Evils.

Rev. J. George Gibson preached to a large congregation a stirring sermon on the text: "If Sinners Entice Thee Consent Thou Not." Proverbs, ix. He said the drink problem was a personal question. The social evil was also a social question. It was because individuals will not take care of themselves that political measures were necessary. The multitude will get drunk and also live in vice, and the minority wish to withdraw the temptation.

There are two points in this all the bitterness of party strife centers.

Now there is one point on which we are all agreed, and in which there is party strife—that it is the duty of every man to take care of himself. Each man belongs to himself. Each man makes his own laws. If we cannot close the saloons we can close our lips. If we cannot destroy the spider's web we can reject the persuasive invitation of Mrs. Spider to walk into her parlor.

We can take heed to this advice: "My son, if sinners entice thee consent thou not. First, let us describe the sinner. There are two kinds of sinners. He is the worst of all, because he is an untrue man. There is the skeptical sinner. He does not believe the Bible. He says prayer is not in accordance with the laws of nature. He calls you boys evil stories. His boldness. He tries to laugh you out of your sacred hopes, but gives you nothing in return. There is also the immoral sinner. This person does not hide his vice. He tells the truth about his evil habits. His boldness fascinates thousands. There is a great deal of the devil rolled up in the small word smart.

Secondly, let us consider the sinners' method of enticing you to open up your way. The favorite enticement is "Oh, this is just a little sin." This idea has caught many a boy and girl. They forget that the practice of little sins leads to the commission of great ones. Another enticement is "only this once."

If our tempter were to tell us we were to sin the same sin a thousand times we would not consent. All the wisdom of God is gathered up in this sentence. Just this once is once too much. The most popular enticement is: "Oh, no one will ever know." If other people do not know we will know. Memory will be a theater people with the collected images of your every deed.

When the sinner knocks at your heart do not open it. This is the only safe plan. If we part with our good life we may not find it a second time. Character once given away is never rebuilt so perfectly that all the crack will be concealed. Those who make a shipwreck of your soul will never display any activity to set it afloat.

gem, which is probably the most valuable in America, consists of a large diamond surrounded by eleven smaller diamonds, and every stone is perfect in form and color.

Beardsley, he that has imitators, Beardsley, the English artist that revels in the outlandish and interesting, is coming over to talk to us in the evening. He will first discuss a book, "Venus and Tannhauser," that he expects will make a stir. Beardsley is 22, a consumptive, and was first an architect's clerk and then tarried in an insurance office. But the great Burne-Jones and the great Pissarro de Chavannes pulled the boy out of such ungenial environment and made him take up art as a profession.

Abdurrahman, Ameer of Afghanistan, is one of the most interesting despots in the world. He is over 50 years of age, a man of great stature and colossal strength, with a broad, massive countenance and brilliant black eyes. He is dignified and commanding in bearing, and can be genial if he cares to be. He is a man of great intellectual power and of a wide range of information.

Mr. and Mrs. Gladstone were sitting in a church at Cannes the other day. They were near the pulpit, but when the sermon began Mr. Gladstone turned to his wife and said irritably: "I can't hear!" "Never mind, my dear," she replied in a whisper loud enough to reach the ears of the congregation, "I'll pay for your seats and get to sleep. It will do you much more good."

Florence Nightingale is now 73, and a confirmed invalid. For her services to the Crimée her country gave her \$50,000. With this she founded the Nightingale Institute for Nurses, and has had the satisfaction of seeing it the parent of one of the humane movements of the age.

SUPPOSED TO BE HUMOROUS.

Watts—I don't know that there is anything so horrible as being thrown into a shipwreck, isn't it half so horrible as being mashed to pulp in a railway accident.

GENERAL HOWARD ON PRAYER.

It Is Simply Asking God for What One Wants.

A large audience of young men gathered in Association Hall yesterday afternoon to hear what General Howard had to say on prayer.

"It is the fashion to-day," said the general, "to affect to doubt the efficacy of prayer. It is the fashion to-day to say that 'He who formed the ear can hear' and 'He who made the eye can see.' Everybody prays at some time in his life. It is a mistake to consider that only the formal act of prayer is prayer. It is prayer in many forms, in public and in private, in prayer in private, and others never pray their prayers, yet commune much in secret. Prayer is the simplest form of speech, for it is simply asking God for what you want, and the act may even be an unconscious one."

The exchange will guarantee all business men against bankruptcy and will guarantee to every workingman a steady job in exchange for pay after he has been a member for one year.

MONDAY, MARCH 11, 1895

LOCAL NEWS IN BRIEF.

The weather to-day will be fair, probably slightly warmer; nearly stationary temperature in the evening; light westerly winds. Yesterday the weather, though cloudy and threatening at times, kept up, and afforded thousands an opportunity to enjoy their weekly outing.

A modern yacht is being built for San Mateo. The yacht Dawn is on the ways being overhauled.

No records were broken by the wheelmen yesterday.

Increased sail has been given to the yacht Catherine.

Ingomar and Romair will try conclusions at the racetrack to-day.

The schooner yacht La Paloma is the latest addition to yachting craft.

Two coursing meets bring out spring dogs and result in excellent runs.

San Francisco was plunged in darkness during the lunar eclipse last night.

The Rev. W. W. Williams preached yesterday on "Conditions of Discipleship."

Rev. J. Gibson discussed the drink and social evils at Emmanuel Baptist Church.

The Gaelic societies will have a tournament at the park on St. Patrick's Day.

Rabbi Nieto denied the charges of the concealment of Samuel Meyer's marriage.

General Howard addressed the young men's meeting at Association Hall yesterday.

An illegitimate son of James G. Fair has been found and will enter a claim on the estate.

Sacramento attorneys have the handling of the claim of the illegitimate son of James G. Fair.

Dr. Thomas Hill's yacht Gracie has been thoroughly overhauled and given a new name.

Among other good work at Shell Mound Strecker made a fine record for the Pacific Coast.

The new St. Marks German Lutheran Church, on O'Farrell street, was dedicated yesterday.

There is considerable activity in yachting circles on the approach of the opening of the season.

Rev. F. L. Higgins lectured on Swedenborgian philosophy at the First New Jerusalem Church last night.

Alphonse Lazar of Arizona shot himself in his room at the French Hospital. He leaves a fortune of \$80,000.

The Emmets defeated the Parnells at the last game of Gaelic football of the season yesterday by 12 points to 6.

M. Dillon and Al Penney, of the Union handball court, won the team amateur championship yesterday.

Mrs. Maud Howe, wife of a saloon-keeper at 111 Eddy street, made a foolish attempt last night to poison herself.

Several members of the Legislature met in caucus yesterday to lay out a programme for the last week of the session.

The Rev. W. H. Moreland spoke some plain words yesterday to the merchant who misrepresents the value of his goods.

The Labor Exchange Association has petitioned the Supervisors to issue bonds for the employment of idle workmen.

The Rev. J. Q. A. Henry, who is going to Chicago, delivered his farewell address at Metropolitan Temple yesterday afternoon.

John Jennings, an Englishman, aged 54 years, was found dead in a hayloft in the rear of 337 Turk street, yesterday morning.

General Kelley of the industrial Army bade farewell to Oakland last night. He will make this city the headquarters of his forces.

Five bodies were taken to the Morgue on Saturday night and Sunday morning, and Dr. Hastings and the entire force were kept very busy.

Many thousands went to Golden Gate Park yesterday to hear the music, but were disappointed because the band did not put in an appearance.

The last game of baseball on the Haight-street grounds was played yesterday. To-day workmen will commence tearing down the grand stand.

Simon Abraham, 40 Moss street, used a penknife with telling effect yesterday morning upon six hoodlums who forced themselves into his room to assault him.

Anthony Curtin alias "Baby," who was arrested in Stockton on Thursday, and brought to this city, has been identified as one of the Franklin diamond robbers.

A strange old man has made his appearance in this city, prophesying the end of the world because of a curious coincidence in the positions of the sun and planets.

Archie Signale, 15 years of age, and his cousin Harvey Warner of San Jose, who stole a horse and rode away on it, were arrested yesterday.

A new division of the Ancient Order of Hibernians was organized yesterday afternoon at St. Rose's Hall. Rev. Father Connelley and others spoke previous to the election of officers.

Vice Consul Owyang and commissioners who visited Mexico with a possible view to a treaty between it and China have returned. [The like the country and say Mexicans like China.]

John D. Spreckels says that the prospects for the passage of the bill granting fifty acres of tide land to the valley railroad now pending in the Legislature are very good. It comes up for passage to-day.

Rev. Jenkin Lloyd Jones, secretary of the World's Parliament of Religions, delivered a forcible and eloquent discourse on the "Contributions of Science to Religion" at the Second Unitarian Church.

St. Anthony's Church was dedicated yesterday morning by Archbishop Riordan, assisted by the clergy of St. Boniface. The prelates appeared in full canonicals, and the procession was most imposing.

Chief Engineer Schussler of the Spring Valley water works scores Mayor Sutro and says that pure water is being supplied to the city of this city. Dr. Regensburger believes it difficult to bring pure water into large cities.

John Jennings, an Englishman, 54 years of age, was found dead in a hayloft in the rear of 337 Turk street, where he had been in the habit of sleeping, yesterday morning. He died from natural causes. The unfortunate man had been out of work and apparently died in want and neglect.

J. B. Forman was found dead in Cum Cook alley, Chinatown, yesterday morning. He died from the effects of a blow on the back of the neck. His pockets were turned inside out, and robbery is supposed to have inspired the crime. "Piggy" Johnson and Billy Madden were arrested on suspicion of committing the crime.

The Young Woman's Suffrage Club will hold an open meeting at Pythian Castle, 909 Market street, this evening at 8 o'clock. The address will be on "Paper, Men and Dogs," an address by Mrs. Anna F. Smith on "Military Training in Our Public Schools," and several choice musical numbers are programmed. Seats will be free.

A DESPERATE STREET DUEL.

Two Sailors Fight With Knife and Revolver on Barbary Coast.

John Papavacchi, a sailor, became involved in a quarrel with Constantini Bianchiani in a saloon at 11 Vallejo street late last night, and used a knife to defend himself from the revolver wielded by Bianchiani.

Both men are in the Receiving Hospital in dangerous conditions. Papavacchi has three bullets in his body, while the other man has three knife wounds on his head, two on his left arm and two on his left side. He may die.

The two men had been drinking together and became involved in a dispute. They went outside and began using strong language. Papavacchi pulled his knife and stabbed Bianchiani in the head before the latter could use his revolver.

The knife-wielder followed up his man and inflicted serious wounds before Bianchiani fired the first shot, which struck his assailant in the breast and passed through his body.

Before the bloody duel ended both men were in a dangerous condition. Papavacchi was taken to the hospital, where it was supposed he had been shot by an unknown party.

Bianchiani managed to crawl into the rear of 112 Vallejo street, where he threw his pistol away. He was found later by Policemen Cullum and P. F. Fleming and Special Officer Eugene Sullivan. He was taken to the hospital, where he told the story of the fight. Both men are under arrest.

ONLY tables banquet lamps, and screens, in our ready-framed picture department. The best and lowest prices in the city. Sanborn, Wall & Co., 741 Market street.

SOME PROMISING YOUNG STUDENTS.

FOUR BUDDING ARTISTS AND SOME FAIR SPECIMENS OF THEIR WORK.

BUSY BRUSHES AND PALETTES

SAN FRANCISCO PROMISES TO TAKE A PROMINENT PLACE IN ART WORK.

Art work has begun in earnest for the year, and all the students in the city are busy with brush and pen. The art feeling is growing stronger and stronger every day, it seems, for the classes are steadily increasing in size, and the number of pictures to be submitted at the spring exhibition promises to far exceed those of any preceding year.

The general opinion seems among the older artists to be that work this year will be found to be especially good, but there is no concealing the fact that there is a woeful lack of unity among even the students, much less the more advanced artists.

There is no pulling together for the general artistic welfare of the local artists. There has been within the past few weeks some exceedingly bad form made plain by the action of established artists that ought to know better than to be impolite to a stranger.

The meeting held Friday night at the institute showed no community of feeling, and this in the face of the fact that art in San Francisco never before showed so many signs of promise.

It is to the older artists that the students look for encouragement and advice, but if these elders are squabbling among themselves and saying ill-natured things of each other there is little hope for cohesion among the students, and it is among the latter that the success of the art future of the city lies hidden.

The fact that John Laforce is to exhibit in a separate gallery this year at the Champs de Mars Salon a collection of his works is being talked about right and left as a proof that the American artist is deemed worthy of the strongest commendation.

Laforce has shown by his career what an American artist can do, and the fact that he is to be accorded a separate gallery in the salon referred to proves the possibilities of the art future of the Pacific Coast. It also shows that in order to succeed the student must neglect no single branch of his work.

In all that the term apprentice, Laforce is a master of his art. Landscape or figures,

his study, "An Esthetic Maiden," shows, he has undoubted ability.

Miss Josephine E. Chapman is one of the most energetic of San Francisco's young students, and she was a long time ago said to be the soul of genius.

Among the other budding artists who are promising are: Miss H. S. Coleman, who is studying hard in water colors; Miss Alice L. Roberts, in black and white; Miss Fanny C. Condon, in water colors; Miss E. Bernick of Oakland; William A. Nelson of Oakland; P. H. Rudolph, Misses E. and L. Humason, of Portland, who are studying here; Miss L. H. Allyn and Miss A. F. Gish.

All of the students in the city have their artistic salvation to work out for themselves, but the fact that so many of them are at work—some independently and some under tuition—promises a future for the city's art.

The older artists who are watching the work of the youngsters declare that within a

flowers or architecture are the same to him, and the youngsters who hope to send work from San Francisco to Paris will succeed, agree to work and work together.

There are so many young men and women who are watching the careers of those who see paint boxes and palettes in almost every corner.

Up out-of-the-way stairs and to the top floors of dingy buildings there is a steady rush and scurry to catch morning light, noon lights or which ever particular hour's light best suits their studio and subject.

Young artists generally prefer colors as a medium, and the four students, specimens of whose work are reproduced herewith, promise, according to their teacher, Mr. Latimer, to do strong work this year.

It is not prophesied that all the young artists of the city are budding Laforges, but from the reception of California work at the Columbian Exposition there is every ground for believing that the students now working there are many future artists.

C. P. Neilson's "Mexican Water Cooler" is a fair representative of that gentleman's work. In most of his studies he shows delicacy of treatment, with just a trace too much of the impressionist. As his teacher is anything but impressionistic, the tendency is personal.

In her "Young Redwood" study Mrs. M.

W. Buck is distinctively consistent, so far as her knowledge of her teacher goes. What she may do depends to a great ex-

A BOUL MURDER IN CHINATOWN.

J. B. FORMAN OF BERKELEY, OUT ON A GOOD TIME, ROBBED AND SLAIN.

FATAL BLOW IN THE NECK.

TWO EX-CONVICTS ARRESTED ON SUSPICION OF COMMITTING THE CRIME.

J. B. Forman, a woolworker, 35 years of age, was found dead in Cum Cook alley, Chinatown, by Officer Bakulich at 7:15 o'clock yesterday morning. Investigation revealed that it was a case of murder, and "Piggy" Johnson and Billy Madden, who have done time at Folsom and San Quentin, were arrested on suspicion of having connection with it.

Forman was believed to have been employed by George S. Webb at 2131 Bancroft way, Berkeley. He came over to San Francisco on Saturday evening on a "good time" bent. He visited the tenement districts, Barbary Coast and Chinatown.

While drinking in a saloon on Jackson street he ran across the men who are now held on suspicion of having struck him the blow on the back of the neck which caused a meningeal hemorrhage of the brain and spinal cord, from which cause Forman died.

As an evidence that robbery was the motive of the murder the pockets in the clothes of the dead man were turned inside out when the body was found. There was nothing of value found on his person. A few cards bearing the addresses of saloons and respectable persons were found in his pockets, showing that the unfortunate man had made the rounds before he came to his sad and untimely end. The body was removed to the Morgue and Dr. Rachael made the autopsy with the results already stated.

Sergeant Conboy and Detective Bohan and a number of others went to work on the case. Conboy, so long and thoroughly acquainted with the district, soon fell on the trail of the dead man the night previous and learned that he had for his drinking companions the ex-convicts, Johnson and Madden. The three men were last seen together in Chinatown at a late hour on Saturday night. Forman was very drunk. While making the tour of the saloons he spent money freely, and it was this extravagant generosity that first attracted the attention of the criminals, who soon wormed their way into his glass.

The ex-convicts were the last persons seen in the company of Forman, and this circumstance makes the case against them quite strong. They were found by Sergeant Conboy and Detective Bohan in the company of degraded women in a disreputable lodging-house on Jackson street, near Kearny, and were taken to the new City Hall Prison.

Cum Cook alley runs off Dupont, between Jackson and Pacific streets, and is inhabited by the gambling and criminal classes of Chinese. It is narrow, dark and lonely, especially after midnight, when drunkenness and debauch have staggered home, and is well adapted for the waylaying and striking down in cold blood of an unsuspecting person. There the highbinder is seen to come out of his hole like the rat to bask in the sun; there he found the dens of the Chinese women of forgotten virtue; there the opium-smoker hits the pipe and dreams his life away.

Frank Johnson, alias "Piggy," is a graduate in the new City Hall Industrial School. There he served two terms in the House of Correction for petty larceny and grand larceny. On November 28, 1891, he was arrested by Detective Coyle, along with Chester Sheehan, Benjamin Boyd and Elias Flop-boyd, for burglary, and got three years in Folsom penitentiary. He is now 37 years of age.

William Madden, alias Ryder, is an all-round "crook." He is 28 years of age. On November 19, 1893, he received two and a half years for burglary in the second degree, and on September 7, 1893, he received a similar sentence for burglary. His last sentence was on September 27, 1893, when he was sent to San Quentin for two years for burglary.

Standish Webb, son of T. F. Webb, whose card was found in Forman's pocket, states that last summer a man who gave his name as Benjamin Forman, was employed at his father's ranch, about four miles from Gazelle, Siskiyou County. About six months ago this man left the ranch and came down to San Francisco to look for work. His father was a stone-cutter, employed at San Francisco. Nothing was heard of Benjamin Forman after this. While he claimed to hail from that place, he is a man about 35 years old, of medium size, with a young Webb can be recognized. While in Gazelle, where he was employed for several months, he received no mail.

MISS BURROUGHS IN JUDAH

She Will Be the Attraction at the Baldwin for This Week—At the Other Theaters.

Miss Marie Burroughs will be seen to-night in the character in which she made her first great success, that of Vashti, the fasting girl in Henry Arthur Jones' drama, "Judah." It will be presented at the Baldwin Theater just as it was given when E. S. Willard carried it successfully through the Eastern cities. The play gives Miss Burroughs a wide scope for the display of her talents, and also Mr. Keller, who will play the role made prominent by Mr. Willard. "Judah" is said to be an interesting play in many respects. Like other works of its author, and like the great run of the plays of to-day, it lays stress on the moral responsibility of man and woman, and emphasizes the old but ever-truthful thought that whatever a man sows that shall he also reap.

At the California Theater "A Temperance Town" will begin its last week. None of Mr. Hoyt's comedies of recent years has been so successful as this.

The Charles Riggs Company, headed by Miss Rose Stillman, a pretty and capable actress, will present "The Clemenceau Case" at the Alcazar Theater this evening. Miss Stillman's impersonation of the French Premier has been spoken of very highly, and A. C. Henderson, who plays Pierre, is well known as a good actor. A novelty will be introduced to San Francisco in conjunction with the play in the form of a water-wind dance, which is performed by the Sisters O'Brien from the Alhambra, London.

The Orpheum will bring out some new people to-night. Among them are Mace and Crimmins, grotesque comedians, La Regolacina and her sisters, dancers, and the brothers Forrest, singing comedians. The bill at the Tivoli for this week is Lecocq's opera "Girofle-Girofla." All of the Tivoli favorites will be seen in the cast.

The burlesque "Pochontas," produced by the Marie Rostelle burlesque company, will be the attraction at the Wigwam.

A double bill will be presented at Stockwell's and a number of new specialties will undoubtedly prove a strong attraction.

So great has been the success of "In the Ranks" at Morosco's Grand Opera-house that it will be continued for another week.

For the third time since the opening of the theater under the present management a piece will be produced for a fortnight, Maud Edna Hall, the new leading lady, has made a distinct hit, and the entire company is doing most excellent work. As

a novelty Company D of the Third Regiment will allow its drill corps to appear in the barracks scene during the remainder of the performances.

WHY THERE WAS NO MUSIC. The Market-Street Railway Managers Thought the Weather Was Bad.

If lovers of music who visit Golden Gate Park on Sundays to hear Scheel's men play wish to avoid disappointment in the future they must see that flags announcing a concert in the park are flying on the Market-street cable-cars.

If there are no flags there will be no music.

It has become a rule with the street railroad company to fly flags on the cars, and in this way musicians learn whether they are to report at the band stand. Should the day be cloudy and threatening the railroad managers decide to keep the flags in shelter. For some reason yesterday was regarded by them as too dull and unpleasant to tempt crowds to take an outing in the park and no band played.

Thousands of people went out to the park, but were sorely disappointed after waiting on the benches in front of the musicians' shell pavilion. The majority of the people, as it is said, had been told to go to a fake show and commenced to move away, but there were many who retained their seats, hugging the fond hope that the hour for commencement had been changed.

L. C. Coggins, the manager of the band, when seen last evening, said: "It is too bad so many people were disappointed, but it is not the musicians' fault. We got the usual notice that we were not wanted and we did not go to the park."

"And this notice was?"

"Why, the railroad company has the management of the concerts, and for years the musicians have been notified by flags. That is, if on concert days they see flags

with the words "Concert at the Park to-night" on cars of the Market-street Railway Company, between 10 o'clock in the forenoon and noon they know that they are to report at the band stand. If no such flags appear then they know that they are not wanted. No flags were displayed and that is why the musicians were not at the band stand."

"Why the flags were not put up I do not know, but suppose it was because the weather looked threatening."

THE LAST OF THE SEASON. BRILLIANT CLOSING GAME OF GAE- LIC FOOTBALL AT CENTRAL PARK.

THE EMMETS DEFEAT THE PARNELLS BY TWELVE POINTS TO SIX.

The last Gaelic football game of the season was played in Central Park yesterday afternoon between the Parnells and Emmets. It attracted an unusually large number of spectators, who expected to see a struggle for supremacy, and they were not disappointed.

When these teams meet it is a foregone conclusion that all the tricks in the game will be brought into play, and the referee has no sincere. Yesterday was no exception. Captain Andy McInerney of the San Francisco was referee, but before the first half was over he retired, and President J. Donovan filled the breach. Then the tricky play was kept in check and the game was played and won on its merits.

The Emmets played a most interesting game than the Parnells and won by a score of 12 to 6. There were many individual plays of brilliancy which called forth the cheers of the spectators. In this respect D. Sugrue, Captain Palmer and Maurice Daly of the Emmets and George Browne, Captain Hurley and Condon of the Parnells particularly distinguished themselves.

At 3 p. m. the teams lined up as follows:

Parnells.	Positions.	Emmets.
Horgan.	Goal.	Messoli.
McInerney.	Goal.	McInerney.
Kelly.	Fullback.	Courtney.
Conroy.
